52,500 sq ft HQ workspace
Delivering summer 2027

An abbreviated introduction to Folio

Built on the historic site of the Temple of Muses, once London's largest 18th-century bookshop, Folio is a modern workplace designed for forward-thinking businesses.

Thoughtfully revitalised by architect practice TateHindle, the building combines sustainable design, smart technology, and lifestyle amenities to support wellbeing and inspire productivity.

Features

A 52,500 Sq Ft Headquarters Building

Finsbury Square Views from All Floors

Spacious Reception & Library Lounge

Flexible Column-free Floorplates

Club Room with Communal Rooftop Terrace

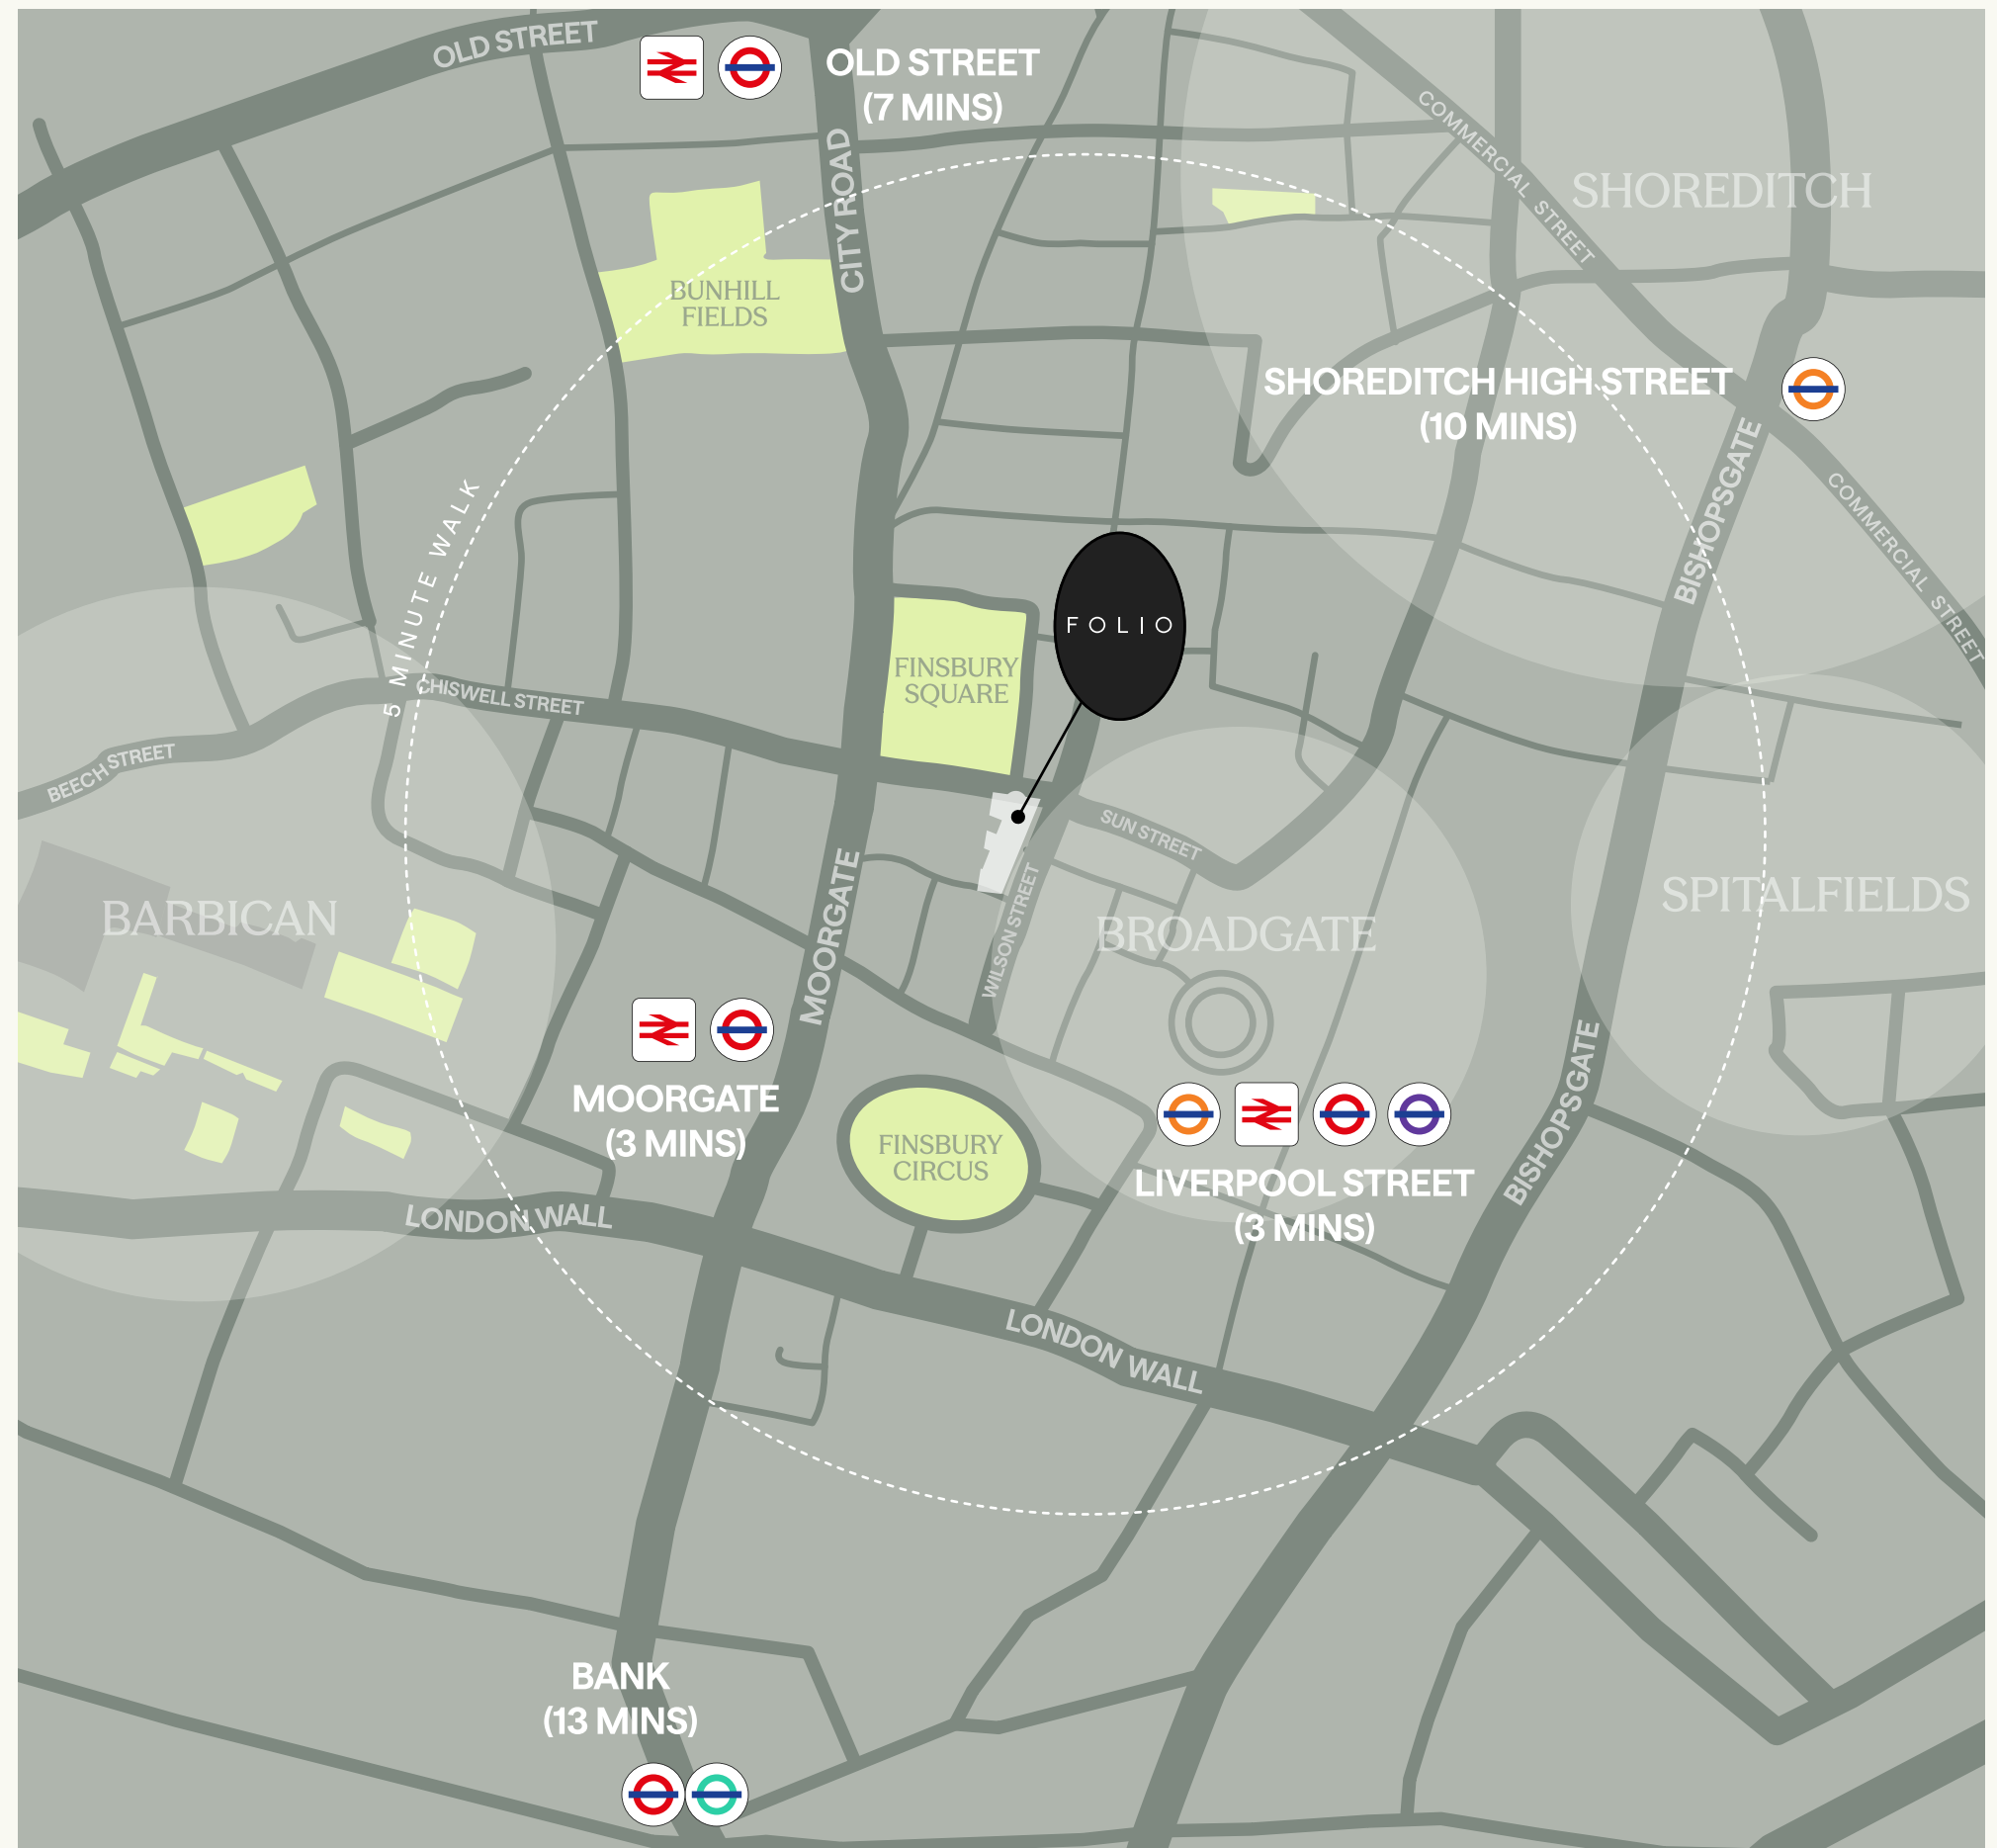

Outstanding End-of-Journey Facilities

Bookended by Shoreditch and The City

A location that offers the best of both worlds — The City to one side and Shoreditch on the other and just a three-minute walk from Liverpool Street Station, one of London's major rail hubs.

Folio sits adjacent to Broadgate, the largest pedestrianised neighbourhood in central London — a vibrant social focal point and a hub for world-leading financial, legal, technology, and media companies.
